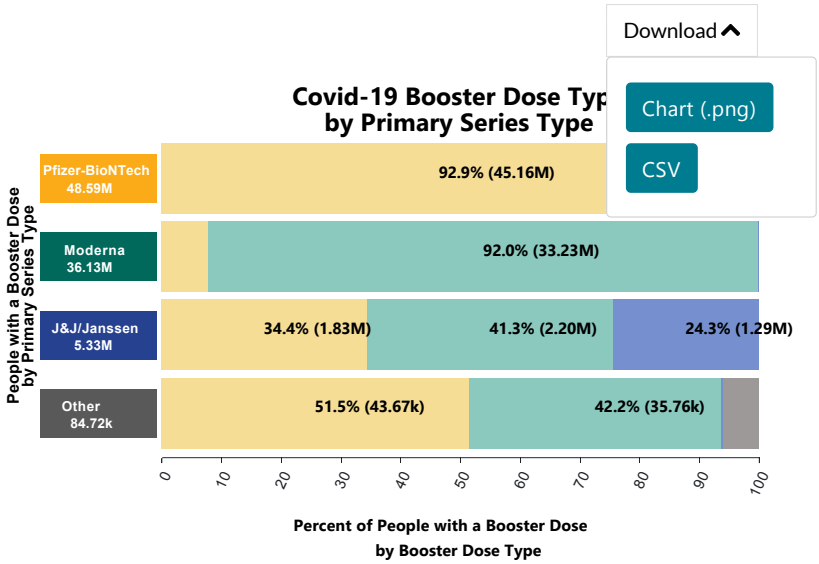
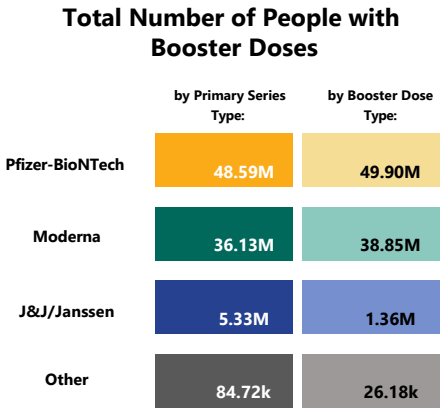
Total Number of People with a Booster Dose





Booster dose type by primary series type data are unavailable for Texas (all records) and Idaho (records for persons ages under 18 years only) because data on the primary series cannot be linked to data on booster doses in the aggregate data submitted by these entities.

Download

COVID-19 Booster Dose Type by Primary Series Type: This graph is limited to people who are fully vaccinated and have received a booster dose. It illustrates the vaccine manufacturer (i.e., vaccine type) of the COVID-19 primary series received, as well as the manufacturer of the booster dose received. The graph demonstrates that while some vaccine recipients received the same vaccine type for their primary series and booster dose, others received one type for their primary series and a different type for their booster dose.

View:

- ( ) Population ≥ 5 Years of Age
- ( ) Population ≥ 12 Years of Age
- ( ) Population ≥ 18 Years of Age
- ( ) Population ≥ 65 Years of Age

This shows the number of doses administered within the state or territory for every 100,000 people of the total population. It does not reflect the residency of the person receiving the vaccine, but where they received it.

Total Doses Administered Reported to the CDC by State/Territory and for Select Federal Entities per 100,000 of the Total Population
